IX.

- i. students should demonstrate results of the exams to the course director, who will forward the results to the Assistant Dean. Director of Preclinical Curriculum.
- ii. If examination progress is not d3(n /MCID 9524(oed)[l]6(f)-1on6(t)-4

|

The proper goals of medical practice are:

1. Healing and ameliorating illness and its consequences
2. Promoting health
3. (When 1 and 2 are no longer possible) Assisting patients in the achievement of a comfortable and dignified death

|

3. It is possible that a student could go to a cafe and buy a beer

|

|

Reporting Concerns about Professional Misconduct

1. Responsibility

For one to enter the practice of medicine requires the acceptance of a major responsibility for his/her professional colleagues and their patients. This responsibility extends into the student/resident years as well.
